EXPERIENCE

Web Developer Intern

Dec 2023 – June 2024

Surusha Technology Pvt Ltd

Patna, India

- Conceptualized and executed an end-to-end LMS website during internship tenure
- Integrated authentication and email features into the LMS, ensuring secure user access and efficient communication, reducing authentication time
- Developed the backend for the LMS, utilizing TypeScript and Redis for efficient data handling and storage
- Integrated diverse tutorials and preparation modules covering core programming languages and advanced technologies
- Spearheaded the creation of a specialized section for company-specific placement preparation

PROJECTS

Your Tour Guide | *ReactJS, Redux, JavaScript, CSS, MongoDB* | [LINK](#)

- Created an attractive website with eight types of tour packages for year-round family vacations
- Consolidated user registration, authentication, and email functionalities for seamless tour package bookings
- Automated unit testing through a CI/CD pipeline and deployed the website on a scalable cloud-based service, improving efficiency and scalability

Weather Watch | *ReactJS, JavaScript, CSS* | [LINK](#)

- Developed a dynamic React.js application that provides real-time weather updates for any location worldwide
- Displays current temperature and conditions (hot, cold, cloudy, rainy)
- Offers a detailed forecast for the entire week

NewsPanda | *ReactJS, JavaScript, CSS* | [LINK](#)

- Created a versatile news application with multiple sections (Health, Business, General, Entertainment, Sports)
- Displays news title, brief description, author, source, and date of news

Portfolio Website | *ReactJS, JavaScript, CSS* | [LINK](#)

- Developed a personal portfolio website with a responsive design for optimal viewing across various devices.

ACHIEVEMENTS/AWARDS

- Secured 2nd place in National Science Day-2024 Quiz Competition, hosted by Amity University Jharkhand
